To whom it may concern.

I have earned the money in my IRA's and 401K's by my own hard work. I choose how it is invested using the knowledge that I have gained by my learning about my options.

I do not wish the federal government to "help" me manage my money. I will assume the risk, and accept the results of my choices.

The Social Security system already is working for me.

My IRA's and 401K's are my business. Not that of the federal government.

Yours,

*Randy Kent*
